Art Unit: 1649

DETAILED ACTION

1. Applicant's remarks and amendments filed 26 June 2006 have been entered. Claims 4 – 7, 9 – 11, 33, and 38 are pending.

Withdrawn Rejections

2. The rejection under 35 USC 103 is withdrawn in light of the present amendments. Applicant has incorporated the limitations of claims 4 and 7 into base claim 38.

New Objections

Sequence Compliance

3. Claims 4, 7, 9 – 11, 33, and 38 are objected to for failing to comply with the sequence rules. 37 CFR 1.822 states, in part:

(e) A sequence with a gap or gaps shall be presented as a plurality of separate sequences, with separate sequence identifiers, with the number of separate sequences being equal in number to the number of continuous strings of sequence data. A sequence that is made up of one or more noncontiguous segments of a larger sequence or segments from different sequences shall be presented as a separate sequence.
(emphasis added)

The protein encompassed by “an amino acid sequence which is a fusion product of sIL-6RδVal fused to IL-6... that includes a peptide of 13 amino acid residues of sequence... SEQ ID NO:1” (see claim 38) does not conform with the underlined section of 37 CFR 1.822(e) above. In order for this case to pass to allowance, applicant must file a new sequence listing in both paper and computer-readable forms which contains the full sequence of this protein in a single SEQ ID NO:. Applicant must also amend the claims as necessary to recite the new sequence identifier (for example claims 7 and 38), as well as the specification (for example, p. 8 lines 7 – 12 as originally filed). Applicant should carefully review the specification to ensure that references to the specific chimeric polypeptide of sIL-6RδVal/IL-6 with the 13 amino acid sequence of SEQ ID NO:1 as the linker is referred to by the new sequence identifier.

5. This application is in condition for allowance except for the following formal matters:
The application fails to comply with the sequence rules as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
